**OVER
70
YEARS**
OF PROVEN
EXCELLENCE

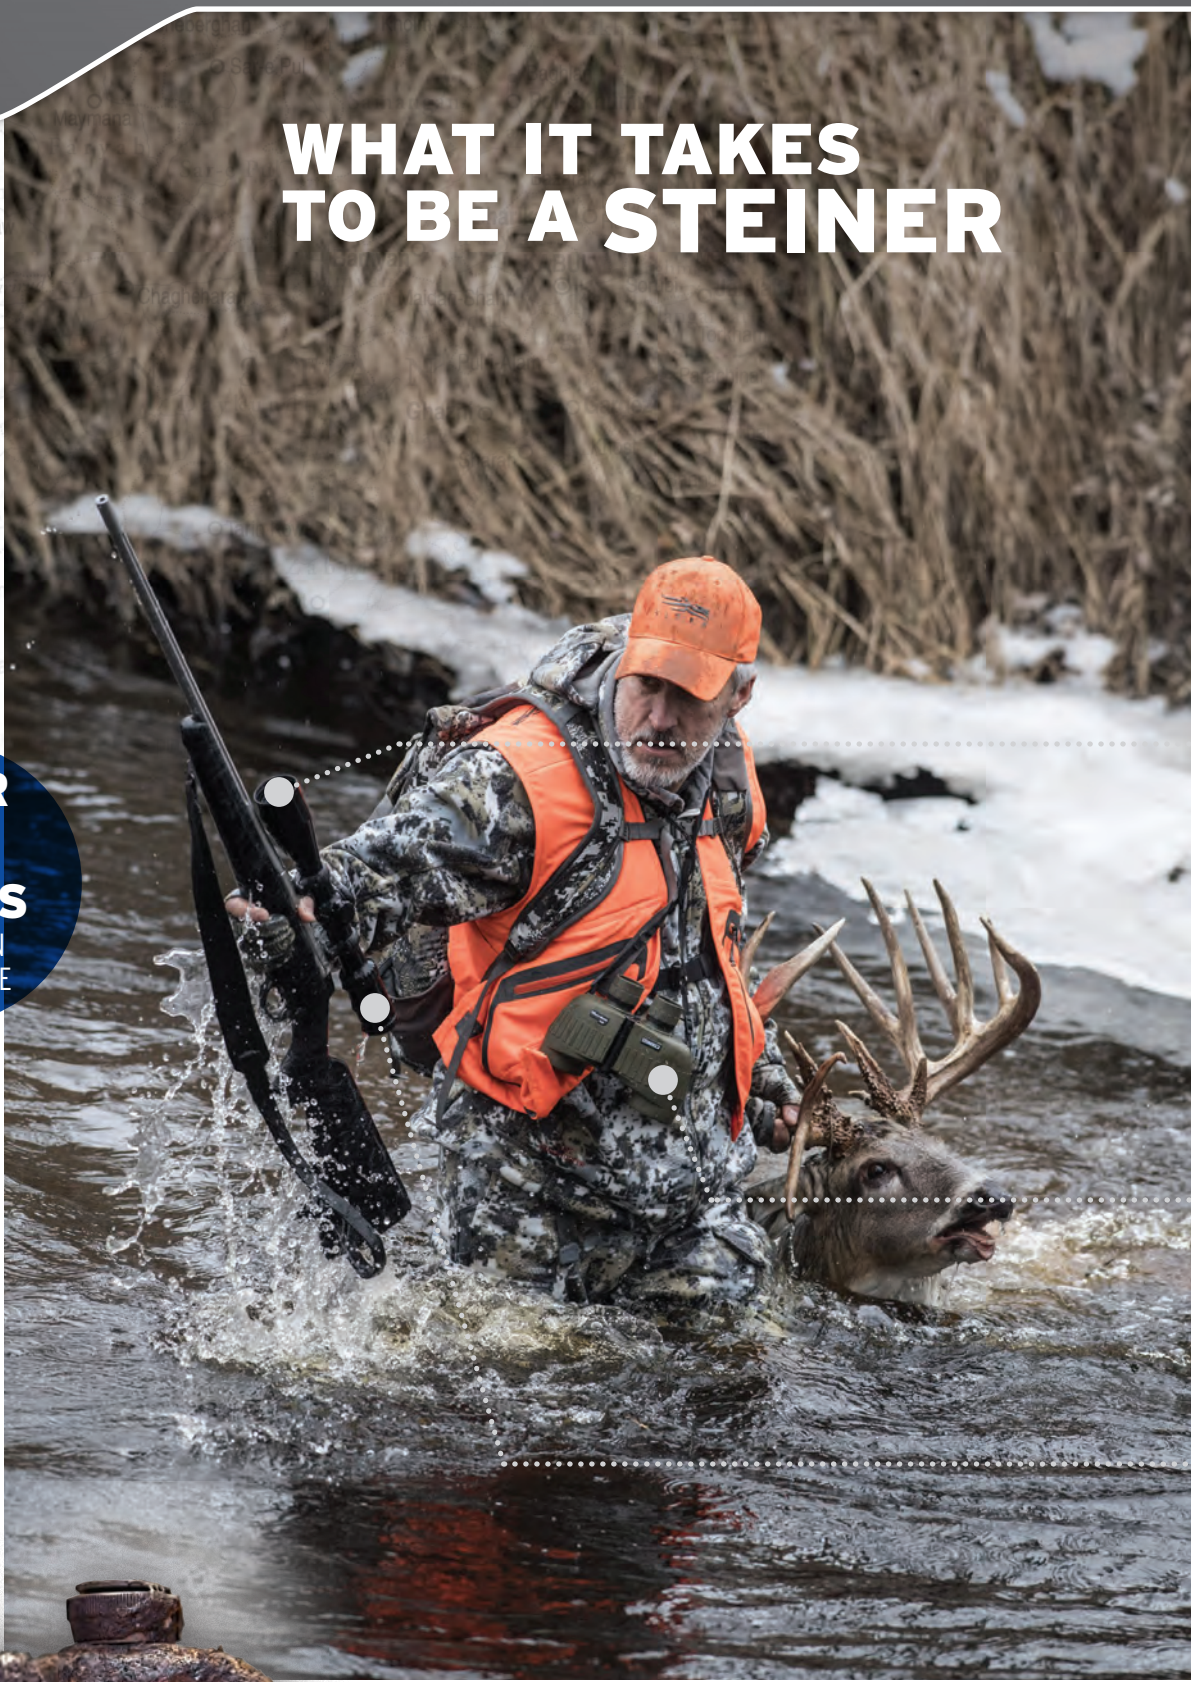

BLASTED BY AN IED IN IRAQ... STILL WORKING

These binoculars came out charred and misshapen, armor and chassis disfigured by fire and impact - but still working with the lens and prism systems intact.

OVER 72,000 STEINER M22 BINOCULARS

have served the U.S. military. When all is on the line, people around the world rely on Steiner.

WORLD-CLASS GERMAN ENGINEERING

In 1947, Karl Steiner started a one-man workshop in Bayreuth, Germany, obsessed with a single goal: creating optical products so functional, sturdy and uniformly flawless that nothing in the world could compare.

PRECISION MANUFACTURING

Steiner's state-of-the-art manufacturing facilities employ more than 460 high-precision manufacturing and inspection steps ensuring the highest quality product every time.

RAZOR-SHARP IMAGE CLARITY

100% IN-HOUSE OPTICS - Steiner grinds and polishes its own premium lenses and BaK4 prisms.

PROPRIETARY COATINGS - Steiner advanced lens coatings are applied to every air/glass surface to enhance light so your eyes perceive more contrast and brighter detail, even in low-light conditions.

ERGONOMIC DESIGN

Designed to maximize form and function, Steiner's binoculars and scopes are ergonomically perfect because the world never is.

LEGENDARY DURABILITY

Battle-proven technology is integrated into every Steiner product making them world-renowned for their toughness.

Riflescope Technology

Over the last decade, Steiner-Optik in Bayreuth, Germany has set the bar in premium rifle optics. Over 460 exacting steps ensure rigorous quality throughout design and manufacture. Relentless innovation creates technologies like the N2 Injection™ System, Steiner Nano-Protection®, and Neverlost Turrets. No optic will serve you better.

FEATURES:

NEW 7X AND 8X ZOOM SYSTEMS

Steiner now offers 4x up to 8x zoom systems providing the perfect solution for your application. These systems provide maximum range at the high end, wider field of view at the low end, and eliminates any tunneling effect to deliver the best image possible to your eye.

RUGGED CONSTRUCTION

Steiner scope tubes are milled from solid, high-grade aluminum stock so there are no welds or seams, for greater strength and durability. Hunting riflescopes feature 30 mm tubes, while the high-magnification tactical riflescopes boast oversized 34 mm tubes that provide greater elevation and windage adjustment at longer ranges.

BUILT FOR ABUSE

Durability is put to the test to ensure all Steiner riflescopes are fully shockproof to withstand endless abuse from high-powered

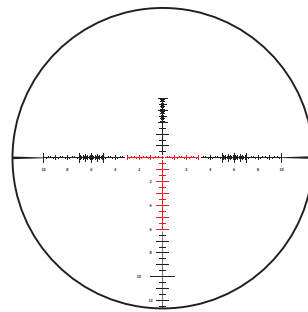

calibers. Scopes are impact tested on all optical and electronic components, and can withstand up to 900 Gs of impact.

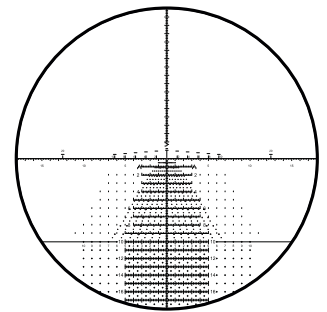

PRECISION RETICLES

Steiner offers a wide variety of reticles perfectly suited to your hunting, competitive, or tactical shooting adventures. From clean, simple designs for fast-action target shooting, to detailed, precision reticles for long-range shooting, you'll experience premium accuracy with Steiner reticles.

See all our reticle options on page 32 or download the Steiner Reticle Guide at www.steiner-optics.com/download-catalog.

SCR Reticle

Horus® TReMoR3 Reticle

FOGPROOF AND WATERPROOF

For absolute fogproof and waterproof protection, Steiner seals 14-psi pressureized dry nitrogen into its optics, for premium clarity in any condition. Steiner's proprietary N₂ Injection™ System overpressurizes optics with nitrogen and trace helium. If seals are not absolutely tight, hyperbarric testing reveals escaped helium molecules, the optics are disassembled, and the process is repeated.

LIFETIME HERITAGE WARRANTY

The Steiner Heritage Warranty means we stand behind our products. We will repair or replace your product at no charge to you. It covers all riflescopes and binoculars sold in the US and Canada.

See full warranty details at www.steiner-optics.com/product-warranties

PRECISION ADJUSTMENT SYSTEMS

Pinpoint accuracy is easily achieved with Steiner windage and elevation adjustment systems. Adjustment clicks are firm and audible. Tactical riflescopes have large, oversized knobs with easy-to-grip designs that allow for positive, non-slip adjustments.

PREDATOR 8 SERIES

GERMAN
PRECISION.
8X

THE NEW PREDATOR 8 RIFLESCOPE SERIES OFFERS MAXIMUM VERSATILITY AND PRECISION, AND PROVIDES THE PREMIUM OPTICS YOU'VE COME TO EXPECT FROM STEINER!

PREDATOR 8 SERIES OVERALL FEATURES

- BEST-IN-CLASS OPTICAL CLARITY
- MASSIVE FIELD OF VIEW
- INDUSTRY LEADING LIGHT TRANSMISSION
- VERSATILE FOR DIFFERENT HUNTING PURSUITS
- ILLUMINATED FIBER DOT RETICLE
- ZERO MODE
- INTEGRATED CUSTOMIZABLE BALLISTIC TURRET

Predator 8 delivers perfectly repeatable and precise reticle adjustment. Illumination, side and elevation adjustment knobs are audible and tactile.

PREDATOR 8 2-16X42

ITEM NO. 3002 | E3 RETICLE & BALLISTIC TURRET UPC 3002994832

An integrated ballistic turret allows the shooter to reliably and accurately compensate bullet drop at different distances. Four different numbered rings, allows the shooter to set marks for custom preferred distances.

PREDATOR 8 3-24X50

ITEM NO. 3003 | E3 RETICLE & BALLISTIC TURRET UPC 3003994832

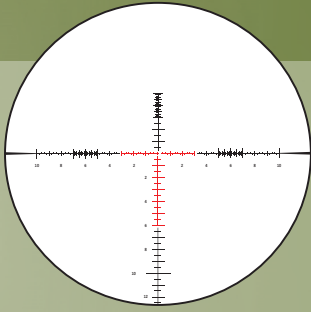

The 8x zoom makes the Predator 8 an ultra versatile rifle scope for precise shooting near and far.

PREDATOR 8 4-32X56

ITEM NO. 3004 | SCR RETICLE & BALLISTIC TURRET UPC 3004994832

SCR™-MOA Reticle

Rugged and lightweight

Designed to take the challenges afield, this series is consistently reliable regardless of your preferred rifle.

DRS1X

**ENGINEERED
FOR SPEED
SIMPLICITY AND
ACCURACY.**

THE NEW DRS1X LIVES UP TO ITS NAMESAKE WITH RAPID AND LETHAL TARGET ENGAGEMENT AT CLOSE QUARTERS

HEIGHT 10.40 IN. | LENGTH 3.88 IN. | WEIGHT 10.40 OZ.
ITEM NO. 8503 UPC 000381885036

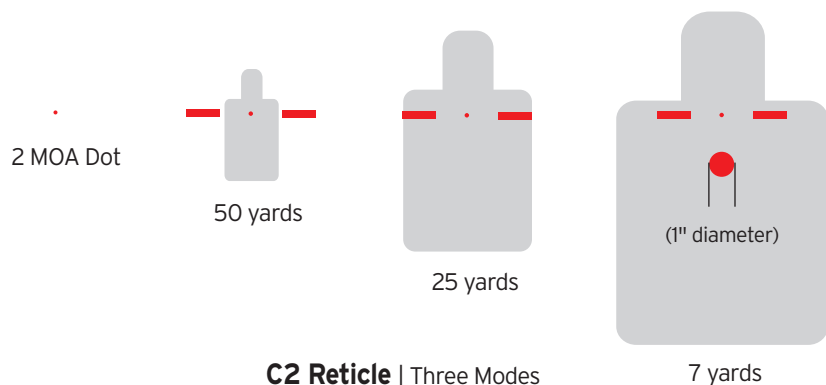

HEIGHT 10.40 IN. | LENGTH 3.88 IN. | WEIGHT 10.40 OZ.
ITEM NO. 8504 UPC 000381885043

DRS1X OVERALL FEATURES

- RUGGED MAGNESIUM BODY
- CHOOSE FROM 3 RETICLE OPTIONS
- SEVEN ILLUMINATION LEVELS (4 DAY/3 NIGHT)
- ADJUSTABLE FOR WINDAGE/ELEVATION
- WATERPROOF/FOGPROOF/SHOCKPROOF
- POWERED BY TWO (2) AA BATTERIES, BUT CAN OPERATE ON ONE
- 2000+ HOURS OF BATTERY RUN TIME
- 13-HOUR AUTO SHUTOFF
- CO-WITNESS WITH STANDARD, A2-HEIGHT IRON SIGHTS, OR USE ANY MAGNIFIER

The **Defendu Reflex Sight** is so versatile and effective at close range, we've named it after the famed Lt. Colonel William Ewart Fairbairn, whose Close Quarters Combat system was designed to rapidly disable an opponent with potentially lethal force.

Perfect for tactical operations or home defense, the 1x reflex sight offers three reticles calibrated for speed and accuracy at 7, 25 and 50 yards.

3,000+ Hours of Run Time
 Powered with two AA batteries, this sight is stingy when it comes to power. Auto shut-off after 13 hrs.

Picatinny Rail Mount
 Mounting height allows co-witness of iron sights.

Rugged Magnesium Body
 Provides added durability under the most challenging circumstances.

RETICLE SPECIFICATIONS

Steiner offers a variety of reticle designs for both hunting and precision shooting. This guide explains the reticles that we offer, how to best use them for more precise aiming, and how to adjust for holdover at long distances and hold-off for wind.

RETICLE SPECIFICATIONS

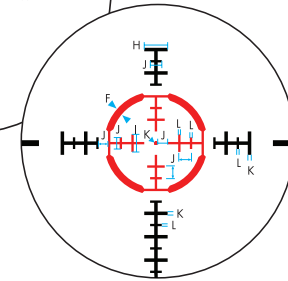

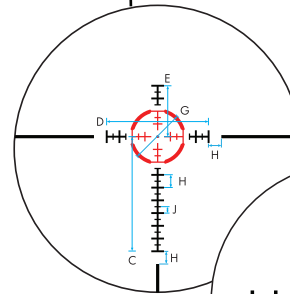

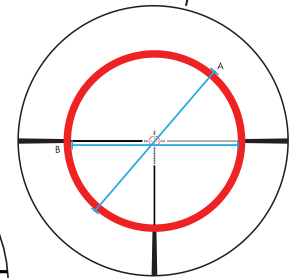

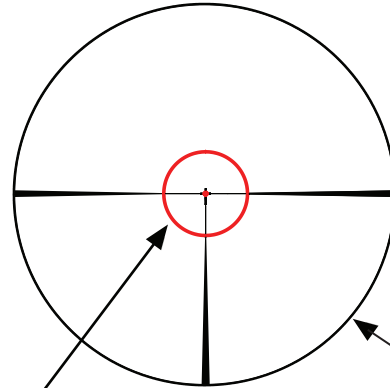

Steiner is one of the largest manufacturers of high-quality optics in the world. Steiner riflescopes are German engineered and made for hunters and precision shooters who demand the best. These scopes are optically and mechanically superior to scopes that cost thousands more.

Binocular Technology

The more light through the lenses, the sharper the image, which is critically important in low-light military situations. Steiner's advanced optics dramatically enhance light transmission, for exceptional clarity in the most challenging conditions. 100% in-house optical capability ensures absolutely consistent, premium lenses and prisms, with world-leading coatings for bright, high-contrast images.

FEATURES:

PROPRIETARY LENS COATINGS

The combination of premium Steiner glass and proprietary lens coatings results in a viewing experience that is second-to-none. All lenses are multicoated, with a variety of specific coatings like the Diamond Night Marine® and Nano-Protection lens coatings that enhance light transmission and provide ultimate protection against dirt, dust and all of Mother Nature's element.

KNOW THE DIFFERENCE

PORRO PRISM DESIGN

Porro prism binoculars are extremely tough and dependable, creating sharp, clear images and 3D viewing even at long distances.

Always in Focus - with Sports-Auto-Focus™ everything stays in focus from 20-yards to infinity. Makes for easy onehanded operation and effortless low light viewing.

ROOF PRISM DESIGN

Roof prism binoculars are extremely light weight, compact and streamlined, making them easy to pack, carry, hold and use.

SUPERIOR RUBBER ARMORING

More commonly referred to as Buna-N or Nitrile rubber, NBR (Nitrile butadiene rubber) is a superior rubber armoring. Unlike many other rubbers, it has the ability to withstand oil, fuel, and

other chemicals. Another important advantage is that NBR rubber has an excellent resistance to heat aging and thus does not harden or lose its protective capabilities like natural rubber does. NBR characteristics do make an excellent choice as it should withstand dirty and greasy hands as well as being left out in the sun or in a hot car.

FOGPROOF & WATERPROOF

For absolute fogproof and waterproof protection, Steiner seals 14-psi pressurized dry nitrogen into its optics, ensuring premium clarity in any condition. Steiner's proprietary N2 Injection System® pressurizes optics with nitrogen and trace helium. If the seals are not completely tight, hyperbaric testing reveals escaping helium molecules, the optics are disassembled and the process is repeated.

WITHSTANDS 40 G'S OF IMPACT

Steiner's Makrolon® Housing combines an unbreakable polycarbonate frame with a NBR Long Life rubber armoring for a light weight and rugged chassis that can withstand 40 G's of impact. NBR Long Life rubber armoring is durable, slip-proof and noiseless to ensure a secure grip in all conditions.

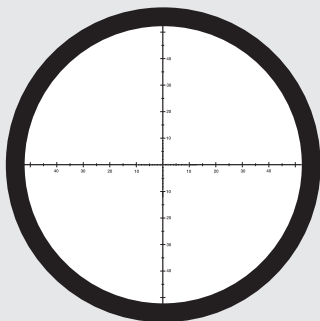

RETICLES

Steiner offers an integrated compass in several of their marine, tactical and military binoculars. This instrument is a great tool to determine a given direction and to determine distance to an object or target.

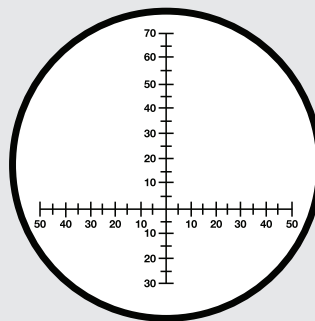

In tactical and military binoculars, there is a choice of either the Steiner Universal MIL Reticle (SUMR), Commander or Military R reticle. The SUMR reticle allows for measurement and ranging estimates with larger 5 and 10 mil graduations towards the outside of the reticle, with single mil and sub-mil graduations close to the center of the reticle, down to 0.20 mil. On the Military R and Commander reticles, the horizontal and vertical scales are graduated in 10-mil increment unit markings.

The Marine Series, the Commander and Commander Global binoculars are also graduated in 10-mil increments and for navigation they also have a directional compass that show the indicated bearing to your target or destination.

PREDATOR AF 10X42

Closer, wider view for the most demanding hunts, with Auto-Focus to keep vision sharp from 20 yards to infinity. Bright picture and advanced CAT™ lenses pierce shadow and cover to reveal bigger, smarter game other hunters don't see. Our CAT™ lens coating helps your vision pierce shaded areas and dense cover revealing game other hunters can't see. With our CAT coating nothing goes unseen, nothing escapes you!

ITEM NO. 2046 UPC 840229103539

CAT™ Lens Coatings

Our CAT™ lens coating helps your vision pierce shaded areas and dense cover revealing game other hunters can't see. With our CAT coating nothing goes unseen, nothing escapes you!

Easy Auto-Focus

Adjust each eyepiece to your vision once, for sharp, clear images from 20 yards to infinity. No twisting a wheel, no chasing focus on the move, no lost chances.

Wheel-Free Open Bridge

Design reduces bulk and weight for easy carry and handling, a secure grip wet or dry, and more comfortable scouting wherever you hunt.

- BRIGHT, CRISP IMAGES
- WIDE FIELD OF VIEW
- FAST-CLOSE FOCUS™
- STEINER NANO PROTECTION®
- FOGPROOF & WATERPROOF
DOWN TO 16 FEET

15X56 HX 15X56

Steiner's most powerful hunting binocular. Massive 15x magnification and larger objectives provide exceptional long-range clarity to spot and judge trophy animals on distant ridges. Tripod mountable to make remote views rock-steady; tripod adapters available.

ITEM NO. 2018 UPC 840229101146

10X42 HX 10X42

HD optics, enhanced lens coatings and 10x magnification deliver bright images for dim light conditions and high detail at longer ranges. Ideal for wide open country and hilly regions.

ITEM NO. 2015 UPC 840229101719

New Frame Design

The HX binoculars is easier to grip, more comfortable for extending scouting.

Nano-Protection®

Hydrophobic molecular coating creates a lens surface so smooth, water sheets off and dirt, dust are repelled.

Ergonomic Eyecups

Comfortable and protect your eyes against side light and drafts.

Fast-Close-Focus™

Central focusing wheel requires minimal rotation for quick, absolute sharpness from up close to infinity.

NAVIGATOR SERIES

**BUILT
FOR LIFE
ON THE
WATER**

THE NAVIGATOR BINOCULARS TAKE STEINER'S POPULAR MARINE SERIES TO THE NEXT GENERATION WITH INNOVATIVE PRODUCT FEATURES. NEW OPEN-BRIDGE DESIGN ENHANCES HANDLING, ALONG WITH A TEXTURE BODY FOR A SURE GRIP IN ANY WEATHER.

NAVIGATOR SERIES OVERALL FEATURES

- OPEN BRIDGE DESIGN
- SPORTS-AUTO-FOCUS™ SYSTEM
- 7X MAGNIFICATION
- SPORTS-AUTO-FOCUS™ SYSTEM
- PROTECTIVE ARMOURING

NAVIGATOR 7X50

The Navigator with 50mm lens diameter and 7x magnification offers a stable image even in rough seas as well as guarantees bright images with excellent contrast and sharpness of detail in the dark.

ITEM NO. 2342 UPC 840229105045

NAVIGATOR PRO 7X50c

In addition to the excellent image quality, this Navigator features an integrated, large analog fluid dampened compass that can be illuminated and makes it easy to maintain your heading.

ITEM NO. 2343 UPC 840229105052

NAVIGATOR 7X30

With a compact design and lens diameter of 30mm, this Navigator's light weight makes it the perfect companion for spontaneous adventures at sea. These characteristics also promise an incredible experience on land.

ITEM NO. 2340 UPC 840229105021

NAVIGATOR PRO 7X30c

This easy-to-use and multifunctional Navigator offers all these features, plus an integrated HD-stabilized compass. This system provides more safety at sea through reliable course navigation.

ITEM NO. 2341 UPC 840229105038

HD Stabilized Compass

Integrated fluid dampened, illuminated compass is an accurate and invaluable viewing and navigation tool. Available on the 7x50c and 7x30c.

Protective Armoring

Enveloped by a protective armoring made of modified rubber (NBR/PVC) with laser texture for a good grip.

Sports-Auto-Focus™

Focus each eyepiece to your vision once, then keep images razor sharp from 20 yards to infinity. No more chasing focus on moving objects.

BLUHORIZONS SERIES

**WORLD'S FIRST
SUNLIGHT
ADAPTIVE
BINOCULAR.**

ALL THE ACTION
WITHOUT A GLIMMER
OF GLARE.

EXCLUSIVE
AUTOBRIGHT™ OPTICS
OFFSET DAZZLING LIGHT
AUTOMATICALLY, FOR
THE BEST VIEW UNDER
THE SUN.

BLUHORIZONS 8X22

Tuck this 4-inch marvel into pack, pocket or purse on your way out, for glare-free viewing from 6.6 feet to infinity. Fast-Close Focus, rainproof and rugged, with versatile 8x magnification. It's the trimmest, lightest Sunlight Adaptive optic there is.

ITEM NO. 2043 UPC 840229103508

BLUHORIZONS OVERALL FEATURES

- UNIQUE AUTOBRIGHT™ ADAPTIVE LENS TECHNOLOGY CUTS THROUGH GLARE TO CAPTURE EVERY DETAIL
- PREMIUM OPTICS GIVE YOU A SHARP, CLEAR PICTURE EVERY TIME
- COMPACT, LIGHT WEIGHT AND TEXTURE-ARMORED TO GO ANYWHERE
- IDEAL FOR EVERY ACTIVE OUTDOOR LIFESTYLE, FROM SEASIDE TO SNOWFIELD

BLUHORIZONS 10X42

This mid-size binocular delivers bright, crisp images and with 10x power, it provides great long-range detail. Perfect for wide-open country, seascapes and snowy ranges.

ITEM NO. 2345 UPC 840229105076

Exclusive AutoBright™ Technology

Automatically optimizes lens light transmission in bright conditions. No shimmer or glare from water, sand, snow, or sky. No squinting, guessing, or eye strain, just a perfect image.

Great Feel and Fast Focus

Grippy textured armor, ergonomic body and Fast-Close-Focus™ make clear viewing a pleasure. Wherever bright sun is an issue, you've got a clear solution.

Ergonomic eye cups

Soft silicone rubber cups surround your eyes, keeping side-light, wind, dust and glare from compromising a crisp, comfortable picture.

STEINER OPTICS

EOPTICS PRODUCT FEATURES | 64
TOR SERIES | 66
DUAL BEAM AIMING LASERS | 68
CLOSE QUARTER BATTLE SERIES | 70

eOptics Technology

Steiner eOptics products utilize innovative state-of-the-art technologies that make you more effective in the field and provide a higher level of performance, even in the harshest of environments. You can let your instincts and training take over and still be confident, accurate and highly effective.

FEATURES:

STATE-OF-THE-ART ENGINEERING DEPARTMENT

Steiner eOptics maintains a cutting-edge engineering department with a full complement of experienced mechanical, electrical and optical engineers. These professionals are supported by highly skilled electrical and mechanical technicians.

RAPID PROTOTYPING

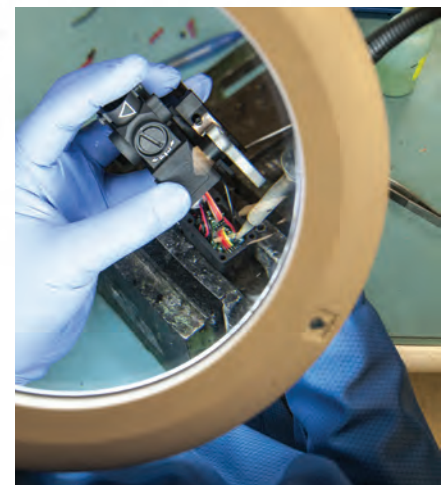

Once the initial design process is finished, rapid 3-D printing stations are used to prototype and perfect the design. We have access to suppliers and resources to quickly take a design project from bare concept to a working, testable prototype.

ASSEMBLY

Once parts are received, the design team is able to assemble and test laser and illumination systems in a state-of-the-art eOptics lab.

QUALITY ASSURANCE

Steiner eOptics maintains an ISO 9001:2015 Quality Management System and has continuously maintained an ISO 9001 QMS certification since 2001. Quality plays a very important role at Steiner and starts with the design and development process. During the initial design review, our engineers evaluate their design concept to make sure that it will meet the necessary quality requirements.

A PROVEN TRACK RECORD

Steiner eOptics has a proven track record as a government contractor supplying military lasers and lights to the U.S. Department of Defense as well as to NATO customers. In addition to supplying products to our military customer, Steiner eOptics has also been selected to provide design and development services by the U.S. Government and other prime contractors.

KEY TEST AND ASSEMBLY CAPABILITIES

- A Class 100 clean room for the assembly of sensitive eoptics products
- Sensitive optical power meters and beam characterization cameras with the necessary filters and apertures for measuring all laser outputs from 500 nm to 1.5 microns at output powers from .01 mW to 500 mJ
- Laser safety room with controlled access and safety shielding to accommodate high-energy lasers to 500 mJ
- A full array of environmental test equipment

PRODUCTION PROCESS

The production process ensures that any defects in assembly are caught as early as possible. The majority of the assembly stages also have a matching test stage used to confirm that the prior production step was properly performed.

RIGOROUS TESTING PROCESSES

MECHANICAL SHOCK, TO SIMULATE THE WEAPONS ON WHICH THE DEVICES WILL BE MOUNTED

MECHANICAL VIBRATION, TO SIMULATE TRANSPORT ON MILITARY AND COMMERCIAL VEHICLES INCLUDING ROTARY-WING AND FIXED-WING AIRCRAFT

HIGH AND LOW TEMPERATURE OPERATION AND STORAGE TESTING, WHERE THE DEVICES ARE EXPOSED TO THE MAXIMUM EXPECTED OPERATING TEMPERATURES AND STORAGE TEMPERATURES

TEMPERATURE SHOCK, WHERE THE EQUIPMENT IS HEATED TO A HIGH TEMPERATURE AND TRANSITIONED INTO A VERY COLD TEMPERATURE WITHIN A FEW SECONDS

IMMERSION TESTING, BOTH SIMULATED AND TO ACTUAL DEPTHS AS FAR AS 66 METERS

ADDITIONAL ENVIRONMENTAL TESTING MAY INCLUDE EXPOSURE TO SALT FOG, SAND, OR DUST AND ELECTRO-MAGNETIC SHOCK TESTING

*NOTE: The figures in the table above are for guidance only. Range performance will vary depending on ambient light level, atmospheric conditions, target reflectivity, and imaging system performance. These figures are a composite of tests using the highest power settings performed on a variety of occasions. IR tests used a PVS-14 in starlight with no moon or urban lighting. Visible laser tests were performed in daylight under a variety of lighting conditions.

STEINER OPTICS 2-YEAR WARRANTY

eOptics warrants its products against defects in workmanship and materials for a period of 2 years from the date of purchase. The warranty covers all Night Vision Devices, Laser Aiming Solutions, Beacons and Battle Lights. Valid in U.S. and Canada only.

For complete warranty information go to www.steiner-optics.com/product-warranties

*NOTE: The figures in the table above are for guidance only. Range performance will vary depending on ambient light level, atmospheric conditions, target reflectivity, and imaging system performance. These figures are a composite of tests using the highest power settings performed on a variety of occasions. IR tests used a PVS-14 in starlight with no moon or urban lighting. Visible laser tests were performed in daylight under a variety of lighting conditions.

STEINER ACCESSORIES

FOR YOUR SCOPE

GET THE PROPER
ACCESSORIES TO
MAXIMIZE THE
EFFECTIVENESS
OF YOUR STEINER
RIFLESCOPE

ANTI-REFLECTION DEVICES (ARD)

Steiner ARDs reduce up to 100% of reflection or "glint" from objective lenses with their honeycomb pattern. Available for M-Series binoculars and M5Xi riflescopes.

ITEM NO. 5901 (3-15X50MM M5XI) UPC 000381859013
ITEM NO. 5902 (5-25X56MM M5XI) UPC 000381859020

SUNSHADES

Steiner sunshades help reduce glare and sun reflections off riflescope objective lenses. The black anodized sunshades can be easily attached by screwing onto the objective housing. Available for M5Xi Military riflescopes.

ITEM NO. 5903 (3-15X50MM M5XI) UPC 000381859037
ITEM NO. 5904 (5-25X56MM M5XI) UPC 000381859044

THROW LEVER T6Xi / P4Xi

Designed for fast and easy magnification changes from any shooting position with a simple push or pull on the lever. Easy to attach without modifying the power ring.

ITEM NO. 5927 UPC 000381859273

SCOPE COVERS

Scopecoat scope covers are designed to fit Steiner scopes for maximum protection of your Steiner Optic. High quality neoprene/nylon laminate will protect your optic from dust, dirt, dings, scratches, and moisture. Elongated sides allow complete coverage for your turrets.

STEINER OPTICS **PRODUCT WARRANTIES**

The Steiner Heritage™ Warranty means we stand behind our products. Over half a century of experience building rugged and reliable, mil-spec product and supplying them to armed forces all around the world allows us to have this kind of confidence. We at Steiner are totally committed to the very highest standards of quality, dependability, and most of all customer satisfaction. Our Heritage™ Warranty assures you of that commitment.

STEINER HERITAGE™ WARRANTY - FOR THE LIFE OF THE PRODUCT

Covers Binoculars, Riflescopes, Rings, and Mounts.

Valid in U.S. and Canada only on items manufactured since 2014.

Products manufactured prior to 2014 are covered by the warranty as stated on the original packaging. For warranties in other countries, please visit www.Steiner.de

We will repair or replace the product at no charge to you. The Steiner Heritage Warranty does not cover loss, theft, deliberate damage or cosmetic damage that does not hinder the performance of the product.

- No warranty card needed.
- No receipt required.
- Warranty is fully transferable to future owners of the product.
- Excludes electronic components which are covered by a 3-year warranty
- Excludes accessories.

To register your product online, visit the Binoculars and Riflescopes Warranty Registration page at <https://www.steiner-optics.com/optics-product-registration>

STEINER 2-YEAR WARRANTY

Covers all Night Vision Devices, Laser Aiming Solutions, Beacons and Battle Lights.

Valid in U.S. and Canada only.

For warranties in other countries, please visit www.Steiner.de

For 2 years from the date of purchase, this warranty covers all laser, optical and electrical components, materials and workmanship.

Warranty is void if the product has been abused, misused, neglected, or disassembled prior to the return to the manufacturer.

To register your product online, visit the Laser Devices and Battle Lights Warranty Registration page. <https://www.steiner-optics.com/optics-product-registration>
